Overlord is on the brink of turning the world's population into zombie-like drones, forcing Nero to activate Zero Hour: the ultimate defence

As a final battle with Overlord looms near, the H.I.V.E. heroes are up against an unimaginably dangerous weapon. Bad news for the Higher Institute of Villainous Education, aka H.I.V.E.: Overlord is reborn and has developed the chilling ability to move from body to body, erasing the host's personality—and ultimately killing them. Overlord must find Otto, the only host designed to truly contain him, and for that he needs to know the location of H.I.V.E. He also plans to take control of a secret U.S. Army facility that is home to the Autonomous Weapon Program, a computer-controlled system uniquely vulnerable to Overlord's control. In the face of these threats, Nero is forced to activate Zero Hour, a plan designed to deal with any member of G.L.O.V.E—the Global League of Villainous Enterprises—who is on the brink of true global domination. Nero also knows that Otto must not be allowed to fall into Overlord's hands, and a desperate race across the globe begins.

Nero is forced to activate Zero Hour, a plan designed to deal with any member of G.L.O.V.E. on the brink of true global domination. Nero also knows that Otto must not be allowed to fall into Overlord's hands, and a desperate race across the globe begins. The stage is set for a final battle with Overlord. Little do they know that he has a final weapon in his arsenal, on a scale unlike anything they have ever seen before.

HIGHER INSTITUTE OF VILLAINOUS EDUCATION Otto Malpense may only be thirteen years old, but so far he has managed to run the orphanage where he lives, and he has come up with a plan clever enough to trick the most powerful man in the country. He is the perfect candidate to become the world's next supervillain. That is why he ends up at H.I.V.E., handpicked to become a member of the incoming class. The students have been kidnapped and brought to a secluded island inside a seemingly active volcano, where the school has resided for decades. All the kids are elite; they are the most athletic, the most technically advanced, and the smartest in the country. Inside the cavernous marble rooms, floodlit hangars, and steel doors, the students are enrolled in Villainy Studies and Stealth and Evasion 101. But what Otto soon comes to realize is that this is a six-year program, and leaving is not an option. With the help of his new friends: an athletic martial-arts expert; a world-famous, beautiful diamond thief; and a spunky computer genius -- the only other people who seem to want to leave -- can Otto achieve what has never been done before and break out of H.I.V.E.?

When missing agent Otto is suspected of leading the mysterious attacks on the leaders of the world's villainous forces, Raven and Wing race against time to find him before other G.L.O.V.E. assassins can locate him.

HOW FAR WILL OTTO GO TO PROTECT HIS FRIENDS? Otto Malpense and his friends thought their first year at the Higher Institute of Villainous Education was the most adventurous and exciting that they would ever encounter. They were dead wrong. When Otto and Wing are allowed off campus to attend Wing's father's funeral, they have no idea it's a trap, all part of a lethal plan organized by Cypher, the most ruthless supervillain any of them have ever known. He intends to use them to retrieve the Overlord Protocol, a device that has the capacity to help him take over the world. But when things go terribly wrong, Otto will stop at nothing to hunt him down and make him pay. With the help of Laura, Shelby, Raven, and his former nemesis, Dr. Nero, Otto must find a way to defeat an enemy that has overcome some of the planet's most infamous villains without even breaking a sweat. Because if he doesn't, the world as they know it will be changed forever.

While en route to a training exercise in the Arctic, Otto and his friends stop off for a tour of the new G.L.O.V.E. flagship, Dreadnought, and when Dreadnought is commandeered by a rogue villain, they try to thwart his evil plans.

Sent to begin the feared Hunt in the icy wastes of Siberia, Otto and his friends prepare for a first strike against Dr. Nero only to discover a traitor in their ranks who forces the team to take sides against one another.

High-octane adventures continue in the eighth book of the H.I.V.E. series, and the team of supremely talented criminals is forced to question everything they know about life as villains. Otto and Raven are desperate to rescue their friends from the clutches of Anastasia Furan, head of the evil Disciples organization. First they must track down the location of the Glasshouse, the prison where Furan trains children to become ruthless assassins. But Otto is also being hunted. In the three months since his "expulsion" from H.I.V.E., The Artemis Section—an elite intelligence division that goes after the toughest targets and reports only to the US president—has had an opportunity to locate him. Set against the backdrop of a daring high-tech prison break, nothing is quite as it seems in Deadlock.

HIVE is in grave danger. Dr Nero, its leader, has been captured by the world's most ruthless security force. It's up to Otto to save him, but first he must escape Nero's sinister replacement and HIVE itself.
