the battleground of political Islam and theological conflict among various Muslim schools of thought. Using comparative and contrastive methodology, examples from the Qur'an are investigated in the light of various theological views to delineate the birth, development and growth of Qur'anic exegesis. The political status quo, in the past and at present, has impinged upon Qur'anic exegesis more than on any other discipline in Islamic studies. This book illustrates the dichotomy between mainstream and non-mainstream Islam, showing how Qur'anic exegesis reflects the subtle dogmatic differences and political cleavages in Islamic thought. Chapters explore in depth the

The meaning of a given Qur'anic term will vary depending on the manner and the context in which it is used, and on the issues and questions in relation to which reference is made to it, and just as a concept gives rise to a term, so also does the term and its usage act to shape the concept. These and other aspects of the Divine communication are mapped and explored, leaving us with a greater appreciation of the Qur'an's depth and what makes it a linguistic and literary miracle.
