When choosing a style guide, it's best to consider who you are and how you will actually use it. The head of the marketing department, a history major, a journalist, and a psychologist have different goals when it comes to writing, so there are different guides that are better suited to those goals.

What's Your Style?: Style Guides and How to Use Them ...

Descriptive writing is often found in fiction, though it can make an appearance in nonfiction as well (for example, memoirs, first-hand accounts of events, or travel guides). When an author writes in a descriptive style, they are painting a picture in words of a person, place, or thing for their audience.

Types of Writing Styles—About Writing: A Guide

Style guides are used to set the tone and guidelines for how an agency communicates with the public. This page is a collection of style guides created by government agencies. You can add your agency's guide by emailing DigitalGov or sharing in the Plain Language Community of Practice .

Maximize the impact and precision of your message! Now in its fourth edition, the Microsoft Manual of Style provides essential guidance to content creators, journalists, technical writers, editors, and everyone else who writes about computer technology. Direct from the Editorial Style Board at Microsoft—you get a comprehensive glossary of both general technology terms and those specific to Microsoft; clear, concise usage and style guidelines with helpful examples and alternatives; guidance on grammar, tone, and voice; and best practices for writing content for the web, optimizing for accessibility, and communicating to a worldwide audience. Fully updated and optimized for ease of use, the Microsoft Manual of Style is designed to help you communicate clearly, consistently, and accurately about technical topics—across a range of audiences and media.

Style guides come in many shapes and sizes, usually focused toward scientific or academic use only. However, business writing is a space occupied by many individuals that has not been given the attention it deserves. The Style Guide for Business Writing, Second Edition, is designed specifically to assist business writers in both the public and private sector, including those publishing with English as a second language; authors of academic papers; business book authors; financial journalists; and writers of reports, proposals or even just e-mail and memoranda. This book provides a comprehensive guide to clear and precise writing that will help develop basic communication skills for the beginner, and refresh the basics for the experienced business writer. Major topics are arranged alphabetically and the cross references and index enable quick and easy access to information. Michael C. Thomsett is a market expert, author, speaker, and coach. His many books include Stock Market Math, Candlestick Charting, The Mathematics of Options, and A Technical Approach to Trend Analysis.

A little more than seventy-five years ago, Kate L. Turabian drafted a set of guidelines to help students understand how to write, cite, and formally submit research writing. Seven editions and more than nine million copies later, the name Turabian has become synonymous with best practices in research writing and style. Her Manual for Writers continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition, A Manual for Writers of Research Papers, Theses, and Dissertations has been fully revised to meet the needs of today's writers and researchers. The Manual retains its familiar three-part structure, beginning with an overview of the steps in the research and writing process, including formulating questions, reading critically, building arguments, and revising drafts. Part II provides an overview of citation practices with detailed information on the two main scholarly citation styles (notes-bibliography and author-date), an array of source types with contemporary examples, and detailed guidance on citing online resources. The final section treats all matters of editorial style, with advice on punctuation, capitalization, spelling, abbreviations, table formatting, and the use of quotations. Style and citation recommendations have been revised throughout to reflect the sixteenth edition of The Chicago Manual of Style. With an appendix on paper format and submission that has been vetted by dissertation officials from across the country and a bibliography with the most up-to-date listing of critical resources available, A Manual for Writers remains the essential resource for students and their teachers.

A clear, accessible introduction for writers of all material on the principles of good writing, guidelines on manuscript presentation, and an outline of publishing options. Contains copious 'real' examples, an appendix of templates for standard forms and letters, a glossary of publishing terms, a bibliography and an index.

"The official style guide used by the writers and editors of the world's most authoritative news organization."

The Gregg Reference Manual 9e by William Sabin is intended for anyone who writes, edits, or prepares material for distribution or publication. For nearly fifty years, this manual has been recognized as the best style manual for business professionals and for students who want to master the on-the-job standards of business professionals. Copyright © Libri GmbH. All rights reserved.

This detailed, example-driven guide illustrates how much technical communicators can do to make written texts more suitable for a global audience. You'll find dozens of guidelines that you won't find in any other source, along with thorough explanations of why each guideline is useful.

Provides information on manuscript preparation, punctuation, spelling, quotations, captions, tables, abbreviations, references, bibliographies, notes, and indexes, with sections on journals and electronic media.

"Pinker has a lot of ideas and sometimes controversial opinions about writing and in this entertaining and instructive book he rethinks the usage guide for the 21st century. Don't blame the internet, he says, good writing has always been hard. It requires imagination, taking pleasure in reading, overcoming the difficult we all have in imaging what it's like to not know something we do know."--Publisher information.
