According to Fred Beckey in the Cascade Alpine Guide Volume 3, the peak was named for John Blum, a Forest Service fire patrol pilot killed in a crash in 1931. The peak sits on the Western edge of North Cascades National Park to the East of the North end of Baker Lake.

~~Mount Blum : Climbing, Hiking & Mountaineering : SummitPost~~

Bear Mountain is a remote 7,931-foot (2,417-metre) mountain summit in the Skagit Range of the North Cascades of Washington state. Bear Mountain is situated in North Cascades National Park. Its nearest higher peak is Mount Redoubt, 2.36 mi (3.80 km) to the northeast. Precipitation runoff from Bear Mountain drains into Bear Creek and Indian Creek, both tributaries of the Chilliwack River.

The godfather of North Cascades climbing updates the third of his seminal guides to this wild range. Included are 10 new topos, updated maps, over 100 photographs (75 with route overlays), route information and driving directions. Hikers, scramblers, serious climbers and Northwest rescue organizations, alike, have relied on Fred Beckey's Cascade Alpine Guides for decades to lead them through this wild mountain range. In addition to their comprehensiveness, the books provide a rare combination of aerial photos with route overlays, three-dimensional illustrated maps and climbing topos. The section of the North Cascades covered in this volume is roughly a pie-shaped area bounded by Hwy 97 and the Columbia River to the east, Lake Chelan to the west, and Hwy 20 to the north. Except for glaciers and some year-round snow fields, it's mostly dry, lonesome, open country, with beautiful granite spires jutting to the sky.

The companion volume to one of the most popular climbing guides to the region, Selected Climbs in the Cascades.

* A classic of mountaineering literature * Beckey's name is synonymous with mountaineering in Alaska, Canada and the western US * Peppared with personal anecdotes and unique photographs This biography of Alaska's Mount McKinley presents a complete history of one of the world's great mountains. Author and famed mountaineer Fred Beckey starts with McKinley's geology and covers early human history, from native associations with Denali to the influx of Russian fur traders and American prospectors. The mountaineering history of McKinley follows, with a look at the gold seekers and surveyors who were among the first to map the region.
