This book charts the way towards a better, repurposed globalization, which it calls 'reglobalization', and shows how this can be built, incrementally but realistically, via reforms to the partial and fragile existing structures of global governance. In making this argument, the book firmly rejects the new fashion for a politics of deglobalization, which has appeared of late in both left-wing and right-wing variants. Instead, it suggests that a reformed Group of 20 (G20), for all its current inadequacies, can still provide the critical coordinating function that the management of a process of reglobalization requires. The book argues that globalization is too important to be lost; rather, it needs to be saved from its capture by neoliberalism and rebuilt around different values for a post-neoliberal era. The emergence of global pandemic as an issue only goes to emphasise the necessity, importance and urgency of the reglobalization project. Reglobalization is essential reading for everybody living in the era of globalization, which is all of us, and worried about its many economic, social and political problems, which is a growing number of us. The chapters in this book were originally published in the journal Globalizations.

Ten-year-old Mamie's class is given an assignment to write letters to the astronauts. All the girls write to Neil Armstrong ("So cute!") and all the boys write to Buzz Aldrin ("So cool!"). Only Mamie writes to Michael Collins, the astronaut who will come so close but never achieve everyone else's dream of walking on the moon, because he is the one who must stay with the ship. After school ends, Mamie keeps writing to Michael Collins, taking comfort in telling someone about what's going on with her family as, one by one, they leave the house thinking that someone else is taking care of her—until she is all alone except for her cat and her best friend, Buster. And as the date of the launch nears, Mamie can't help but wonder: Does no one stay with the ship anymore? With I LOVE YOU, MICHAEL COLLINS, Lauren Baratz-Logsted has created a heartwarming story about family and being true to yourself. A Margaret Ferguson Book

The study of vocabulary is a flourishing area in applied linguistics and language teaching which is creating a need for new approaches to vocabulary assessment. This volume presents a framework that expands the traditional concept of a vocabulary test to cover a range of procedures for assessing the vocabulary knowledge of second language learners. These procedures can be useful for addressing practical assessment needs as well as providing tools for conducting research into the lexical dimension of language.
