System design
embedded systems.
The are some of the
most common building
blocks of embedded
systems: keyboard
scanners, display
inter faces, timers,
and JIOs. Most of the
code is written in
highly portable C.

programme, and to do this equitably

November 6, 2020

Earlier on this year during the height of the pandemic, many GP practices indicated that they would struggle to deliver this year's flu vaccination programme if covid restrictions were to remain in place.
