Presents details about plantation life before the Civil War when slaves frequently rebelled against their masters and escaped

Booker Taliaferro Washington began life as a slave in Virginia shortly before emancipation, but rose to become one of the most celebrated leaders the African American community has ever had. His principal occupation was as president of the Tuskegee Institute, which he founded in 1881, but he earned national renown as an orator, writer and political advisor. His address at the Atlanta Exposition was a pivotal moment in race relations in America. Washington believed deeply in the dignity of physical labor, and that merit and talent are eventually rewarded regardless of race or class. The Tuskegee Institution was primarily a technical college, and aimed to teach industrial skills in addition to academic training. Students built many of the buildings on the campus, grew the food that was eaten there, and even made the furniture, tools and vehicles used by the school. Up from Slavery was originally published as a serialized work in The Outlook, a Christian magazine based in New York, before being collected in a single volume in 1901. This edition includes an introduction by Walter H. Page, a future U.S. ambassador to the United Kingdom. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Shares personal accounts of what it was like to live under slavery

This book grew out of a series of articles which were published originally in Ebony magazine. The book, like the series, deals with the trials and triumphs of a group of Americans whose roots in the American soil are deeper than those of the Puritans who arrived on the celebrated "Mayflower" a year after a "Dutch man of war" deposited twenty Negroes at Jamestown. This is a history of "the other Americans" and how they came to North America and what happened to them when they got here. The story begins in Africa with the great empires of the Sudan and Nile Valley and ends with the Second Reconstruction which Martin Luther King, Jr., and the "sit-in" generation are fashioning in the North and South. The story deals with the rise and growth of slavery and segregation and the continuing efforts of Negro Americans to answer the question of the Jewish poet of captivity: "How shall we sing the Lord's song in a strange land?" This history is founded on the work of scholars and specialists and is designed for the average reader. It is not, strictly speaking, a book for scholars; but it is as scholarly as fourteen months of research could make it. Readers who would like to follow the story in greater detail are urged to read

each chapter in connection with the outline of Negro history in the appendix.

An eminent African-American scholar recalls a century of memories as an advocate for civil rights, from urging the Roosevelt administration to respond to the Cordie Creek lynching through his involvement in the Civil Rights movement.

This dynamic and comprehensive text from nationally renowned scholars continues to demonstrate the profound influence African Americans have had -- and continue to have -- on American politics. Through the use of two interrelated themes -- the idea of universal freedom and the concept of minority-majority coalitions -- the text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes. The authors show that through the quest for their own freedom in the United States, African Americans have universalized and expanded the freedoms of all Americans. New to the Eighth Edition A new co-author, Sherri L. Wallace, is renowned for her teaching, scholarship, and participation in APSA's American government textbook assessment for coverage of race, ethnicity, and gender. She is the perfect addition following an election year that included female presidential candidates as well as candidates of color and issues focusing on racial tension and inequality. Offers a new Media Integration Guide for the first time. Provides the first overall assessment of the Obama administration in relation to domestic and foreign policy and racial politics in particular. Updated through the 2016 elections, connecting the Obama years with the new administration. Looks at candidates Hillary Clinton and Ben Carson in particular in relation to the themes of the book. Adds a new section on State Politics and Elections. Includes new sections on intersectionality dealing with issues of race, gender and sexuality; LGBT issues as another manifestation of the struggle for universal freedom; a discussion of the "Black Lives Matter" movement; and a new section focusing on the changing character of black ethnicity as result of increased immigration from Africa and the Caribbean. Discusses the way in which race contributed to the polarization of American politics; the connections to the Tea Party; and the Obama Presidency and the 2016 presidential campaign as the most polarized since the advent of polling. Previews the impact of the Trump Administration on matters of race and ethnicity.
