"The challenge that nurses face today is one of identifying specific nursing diagnoses for those people assigned to their care and of incorporating these diagnoses into a plan of care. This handbook is intended to help in this effort in two ways: by providing a quick reference to each diagnostic category in terms of its definition, etiological and contributing factors, and defining characteristics; and by identifying possible nursing diagnoses that could be associated with the major medical diagnoses."--Introduction.

The newly revised Eleventh Edition of this best-selling handbook is an easy-to-carry, accessible guide to the latest NANDA-approved nursing diagnoses. Section 1 contains all nursing diagnoses, including definitions, characteristics, related factors, outcomes, and interventions. Section 2 contains Diagnostic Clusters with a collaborative focus. Features include Author's Notes, key concepts, interventions with rationales, focus assessment criteria, and outcome criteria. This edition includes listings of associated NIC (Nursing Interventions Classifications) and NOC (Nursing Outcomes Classifications) for every NANDA diagnosis. New diagnoses added and modified in accordance with the latest NANDA meeting are in an appendix for easy access.
