A general introduction to the social and legal issues involved in acts of violence against Native women, this book's contributors are lawyers, social workers, social scientists, writers, poets, and victims. In the U.S. Native women are more likely than women from any other group to suffer violence, from rape and battery to more subtle forms of abuse, and Sharing Our Stories of Survival explores the causes and consequences of such behavior. The stories and case-studies presented here are often painful and raw, and the statistics are overwhelmingly grim; but a countervailing theme also runs through this extremely informative volume: Many of the women who appear in these pages are survivors, often strengthened by their travails, and the violence examined here is human violence, meaning that it can be changed, if only with much effort and education. The first step is to lay out the truth for all to see, and that is the purpose accomplished by this book.

It contains abridged stories of Greek mythology, including the extant Greek plays, and considers portions of the works of the great writers, including Aeschylus, Euripides Hesiod, Homer, Plato, and Sophocles. It opens a comprehensive window into the lives of these great ancient people.

Poetry, Latino/Latina Studies. LGBT Studies. "Like Whitman, Quesada is a poet of motion\u2014journeying to the center of the US, where the traditions and innovations of first-generation Americans traverse the meditative starbursts of hills; ford rivers; cross prairies; and seek out 'the alpenglow of tomorrow and tomorrow.' From Costa Rica to Los Angeles and across the continent, Quesada's poems chronicle one family's history: from the courtship of his parents to their separation, from his childhood struggles to awakening desire from his mother's lottery winnings to his own personal losses, Ruben Quesada carries us toward 'that seam in space' where dream and experience intersect. This isn't the story of what it means to come to this country. It's the story of what it means to belong here"---D. A. Powell.

While supervising a small group of interns at a major New York medical center, Dr. Robert Marion asked three of them to keep a careful diary over the course of a year. Andy, Mark, and Amy vividly describe their real-life lessons in treating very sick children; confronting child abuse and the awful human impact of the AIDS epidemic; skirting the indifference of the hospital bureaucracy; and overcoming their own fears, insecurities, and constant fatigue. Their stories are harrowing and often funny; their personal triumph is unforgettable. This updated edition of The Intern Blues includes a new preface from the author discussing the status of medical training in America today and a new afterword updating the reader on the lives of the three young interns who first shared their stories with readers more than a decade ago.
