The Open Society and Its Enemies is a work on political philosophy by the philosopher Karl Popper, in which the author presents a "defence of the open society against its enemies", and offers a critique of theories of teleological historicism, according to which history unfolds inexorably according to universal laws. Popper indicts Plato, Georg Wilhelm Friedrich Hegel, and Karl Marx as totalitarian for relying on historicism to underpin their political philosophies, though his interpretations of

The Open Society and Its Enemies - Wikipedia

Written in political exile during the Second World War and first published in 1945, Karl Popper's The Open Society and Its Enemies is one of the most influential books of the twentieth century. Hailed by Bertrand Russell as a 'vigorous and profound defence of democracy', its now legendary attack on the philosophies of Plato, Hegel and Marx exposed the dangers inherent in centrally planned political systems.

The Open Society and Its Enemies - 1st Edition - Karl ...

Karl Popper's "The Open Society and Its Enemies" is one of the greatest defenses of liberal democracy ever written. Like some medieval monk, he toiled away in virtual isolation in New Zealand during the depths of World War II, an exile and Jewish refugee from his native Austria.

The Open Society and Its Enemies by Karl Popper

The first book in English by Professor Sir Karl Popper was accepted for publication in London while Hitler's bombs were falling, and was published in 1945 under the title "The Open Society and its...

Karl Popper on democracy - From the archives: the open ...

Popper holds that the open society first rose in ancient Athens, but was soon challenged by its contemporaries. The totalitarian spirit, which for Popper is as old as civilization itself, was born of the attempt to stifle the progress of the open society. He singles out Plato as a prime example of this totalitarian spirit.

George Soros, Karl Popper, and ironies of "The Open ...

Karl Popper defined the open society as one "in which individuals are confronted with personal decisions" as opposed to a "magical or tribal or collectivist society." [15] He considered that only democracy provides an institutional mechanism for reform and leadership change without the need for bloodshed, revolution or coup d'état .

Open society - Wikipedia

Sir Karl Raimund Popper CH FBA FRS (28 July 1902 – 17 September 1994) was an Austrian-British philosopher, academic and social commentator.. One of the 20th century's most influential philosophers of science, Popper is known for his rejection of the classical inductivist views on the scientific method in favour of empirical falsification.According to Popper, a theory in the empirical ...

Karl Popper - Wikipedia

KARL POPPER'S THE OPEN SOCIETY AND ITS ENEMIES: A CRITIQUE This work is undeniably a classic. Karl Popper decided to write it in March 1938, on the day he received news that the Nazis had invaded Austria, and finished it in 1943.
