The sociologist and economist working on a forest where mining developments are occurring either in or near it must be aware of the potential impacts of mining on the economy and cultures surrounding the forest and, hence, on the management of that forest. This guide cover major points of concern to the sociologist and economist involved in mitigating the adverse effects of such mineral developments.

What is economics? What can - and can't - it explain about the world? Why does it matter? Ha-Joon Chang teaches economics at Cambridge University, and writes a column for the Guardian. The Observer called his book 23 Things They Don't Tell You About Capitalism, which was a no.1 bestseller, 'a witty and timely debunking of some of the biggest myths surrounding the global economy.' He won the Wassily Leontief Prize for advancing the frontiers of economic thought, and is a vocal critic of the failures of our current economic system.

This absorbing book describes the long development of the Soviet space shuttle system, its infrastructure and the space agency's plans to follow up the first historic unmanned mission. The book includes comparisons with the American shuttle system and offers accounts of the Soviet test pilots chosen for training to fly the system, and the operational, political and engineering problems that finally sealed the fate of Buran and ultimately of NASA's Shuttle fleet.
