Puppetry is an exciting, flexible, malleable art form that can engage the creative forces of children or adults. Puppets can not only tell a story, they can be used to enhance the curriculum, present an idea or a concept in a compelling way, or teach any number of necessary skills. Children and adults presenting a puppet play are given a sense of their own inventive power. This reference work offers an A to Z view of working with puppets. It covers everything from the basic strategies of advertising and marketing puppet productions, to assembling the puppets out of household materials such as paper bags, cereal boxes, or gloves, to the more elaborate sculpting of armatures. Stages, curtains and props are also discussed along with the history of puppetry. Numerous illustrations give a visual of many of the finished products. This work concludes with an annotated bibliography and index.

Presenting an integrative model for treating traumatized children, this book combines play, art, and other expressive therapies with ideas and strategies drawn from cognitive-behavioral and family therapy. Eliana Gil demonstrates how to tailor treatment to the needs of each child by using both directive and nondirective approaches. Throughout, practical clinical examples illustrate ways to target trauma-related symptomatology while also helping children process painful feelings and memories that are difficult to verbalize. The book concludes with four in-depth cases that bring to life the unique situation of each child and family, the decision-making process of the therapist, and the applications of developmentally informed, creative, and flexible interventions.
