Writing Teacher Reflection Journal Online | Reflective Journal

Like other forms of self-inquiry, reflective teaching is not without its risks, since journal writing, self-reporting or making recordings of lessons can be time-consuming. However teachers engaged in reflective analysis of their own teaching report that it is a valuable tool for self-evaluation and professional growth.

Towards Reflective Teaching - The Teacher Trainer Journal

Reflective journals are notebooks or pieces of paper that students use when writing about and reflecting on their own thoughts. The act of reflecting on thoughts, ideas, feelings, and their own learning encourages the development of metacognitive skills by helping students self-evaluate and sort what they know from what they don't know.

college faculty, administrators and teachers One of the most powerful ways to learn, reflect and make sense of our lives is through journal keeping. This book presents the potential uses and benefits of journals for personal and professional development—particularly for those in academic life; and demonstrates journals' potential to foster college students' learning, fluency and voice, and creative thinking. In professional life, a journal helps to organize, prioritize and address the many expectations of a faculty member's or administrator's roles. Journals are effective for developing time management skills, building problem-solving skills, fostering insight, and decreasing stress. Both writing and rereading journal entries allow the journal keeper to document thinking; to track changes and review observations; and to examine assumptions and so gain fresh perspectives and insights over past events. The authors present the background to help readers make an informed decision about the value of journals and to determine whether journals will fit appropriately with their teaching objectives or help manage their personal and professional lives. They offer insights and advice on selecting the format or formats and techniques most appropriate for the reader's purposes.

professional development opportunities made available to them in schools and insist that the most effective development programs they have experienced have been self-initiated. *Enhancing Professional Development for Teachers* explores how the provision of professional development through online media has had a significant influence on the professional lives of an increasing number of teachers. Growing numbers of educators contend that online teacher professional development (OTPD) has the potential to enhance and even transform teachers' effectiveness in their classrooms and over the course of their careers. They also acknowledge that it raises many challenging questions regarding costs, equity, access to technology, quality of materials, and other issues. *Enhancing Professional Development for Teachers* suggests that teachers be active participants in planning and implementation of any new technologies that enhance professional development. The book recommends that federal and state policy makers take on the responsibility of promoting equal access to technology while the federal government and foundations play an important role by supporting the development, evaluation, and revision of OTPD.

Since the 1980s, the concept of Reflective Practice has gained in popularity and is now a major component of teacher education and professional development programs worldwide. This book is one of the first to show how this technique can be embraced by language teachers. It makes sense that for those whose job it is to teach writing, a good way to be reflective is by writing regularly about their work. Reflective Writing for Language Teachers shows language teachers how they can use writing as a way to subject their beliefs and practices to critical reflection and offer them a means of using this type of reflective practice for professional development purposes. When

Bookmark File PDF Reflective Teacher Journal

language teachers write about various facets of their work over a period of time, and then read over their entries looking for patterns in their own thoughts, they may uncover aspects of their practice that they had not realized before beginning to write reflectively. Reflective writing develops language teachers' understanding of their practice and also leads to a clarification of the values and assumptions that underlie those practices.

Use "The Reflective Teacher Journal" to help you be a healthier, more productive teacher by practicing a daily, 5-minute emotional hygiene routine. Designed with tenants of Positive Psychology in mind, you will have the opportunity to reflect on a total of 45 different school days. Each day, you will focus on what went right, set intentions for what could have gone better, and remind yourself of the strengths that make you a great teacher. Each day also awaits you with either an inspirational quote, a practical pedagogical tip (that we call bite-sized PD), or a call to action that will enhance your craft and/or your relationships (like a challenge to visit a colleague's classroom for ten minutes). EDpiphany believes in creating "Moments That Move Educators," and we hope this journal will move teachers all across the world.
