Still considered one of the best books ever written about bullfighting, *Death in the Afternoon* is an impassioned look at the sport by one of its true aficionados. It reflects Hemingway's conviction that bullfighting was more than mere sport and reveals a rich source of inspiration for his art. The unrivaled drama of bullfighting, with its rigorous combination of athleticism and artistry, and its requisite display of grace under pressure, ignited Hemingway's imagination. Here he describes and explains the technical aspects of this dangerous ritual and "the emotional and spiritual intensity and pure classic beauty that can be produced by a man, an animal, and a piece of scarlet serge draped on a stick." Seen through his eyes, bullfighting becomes a richly choreographed ballet, with performers who range from awkward amateurs to masters of great elegance and cunning. A fascinating look at the history and grandeur of bullfighting, *Death in the Afternoon* is also a deeper contemplation of the nature of cowardice and bravery, sport and

This translation first appeared in a privately printed edition in 1904 (the translator remains anonymous). With an Introduction by Derek Matravers. When it was first published in 1781, *The Confessions* scandalised Europe with its emotional honesty and frank treatment of the author's sexual and intellectual development. Since then, it has had a more profound impact on European thought. Rousseau left posterity a model of the reflective life - the solitary, uncompromising individual, the enemy of servitude and habit and the selfish egoist who dedicates his life to a particular ideal. *The Confessions* recreates the world in which he progressed from incompetent engraver to grand success; his enthusiasm for experience, his love of nature, and his uncompromising character make him an ideal guide to eighteenth-century Europe, and he was the author of some of the most profound work ever written on the relation between

Known for much of the nineteenth century as "the ever-faithful isle," Cuba did not earn its independence from Spain until 1898, long after most American colonies had achieved emancipation from European rule. In this groundbreaking history, David Sartorius explores the relationship between political allegiance and race in nineteenth-century Cuba. Challenging assumptions that loyalty to the Spanish empire was the exclusive province of the white Cuban elite, he examines the free and enslaved people of African descent who actively supported colonialism. By claiming loyalty, many black and mulatto Cubans attained some degree of social mobility, legal freedom, and political inclusion in a world where hierarchy and inequality were the fundamental lineaments of colonial subjectivity. Sartorius explores Cuba's battlefields, plantations, and meeting halls to consider the goals and limits of loyalty. In the process, he makes a bold call for fresh perspectives on imperial ideologies of race and on the rich political history of the African diaspora.
